

## New Product Information

### -Smarty JR-

For Dodge RAM 5.9L Common Rail 2003 – 2007

While Smarty remains our flag ship product, we're proud to announce the release of the new **Smarty Junior**

This product is geared towards the customer who wants reliable and safe power for both the engine and the transmission combined with good fuel mileage. In fact our main concerns during the development of the performance softwares have been lowest EGT's and lowest smoke levels possible. Even when used at the highest horsepower level, typical exhaust gas temperatures are on average 200°F cooler than with a stock software!

Under normal driving conditions Smarty junior can be used without the need for gauges!  
*Even towing up to GCWR*

#### Key features

- 40 / 70 / 100 hp power levels
- Lowest EGT's in the industry
- Improved fuel economy
- Optimized drivability
- Leaves no footprint
- Internet updatable for latest calibrations
- Easy installation
- No tools necessary
- Fastest programming in the industry

#### Additional features

- Diagnostic Trouble Code reading in plain english
- Adjust speedometer for tire sizes form 22.5" to 44"
